PROFESSIONAL PROFILE

Senior Cybersecurity academic and industry professional with a PhD in Computer Science (Cybersecurity), specialising in Machine Learning, and Deep learning application for malware detection and classification. MSc in Advanced Control & Systems Engineering, and over ten years' experience in regulated, safety-critical infrastructure environments.

Experienced in teaching undergraduate and postgraduate students in cybersecurity, network security, and systems security, supported by professional certification development and hands-on practical laboratory engagement. My teaching is student-centred, inclusive, and integrates real-world cybersecurity scenarios, risk governance frameworks, and applied technical simulations.

I am committed to widening participation, strengthening programme quality, and contributing at a senior level to curriculum development and student success.

TEACHING AND ACADEMIC EXPERTISE

- Cybersecurity & Network Security Programme Delivery
- Curriculum Enhancement & Assessment Design
- Employability-Focused Teaching Strategy
- ISO 27001 & Governance Framework Integration
- AI & Machine Learning Applications in Security
- Practical Penetration Testing & Security Operations
- Dissertation Supervision & Academic Mentoring
- Academic Quality & Moderation Processes

- Strategic Academic Leadership

ACADEMIC QUALIFICATIONS

PhD, Computer Science (Cybersecurity)

University of Bradford | 2023

Thesis: Deep-Learning-Based Framework for Efficient Malware Detection and Classification

MSc(Eng), Advanced Control & Systems Engineering

University of Sheffield | 2016

Dissertation: Physical Layer Security in Wireless Sensor Networks

BEng, Electrical & Computer Engineering

Federal University of Technology Minna | 2008

Dissertation: Design of Automatic Voltage Regulator.

AWARDS & ACADEMIC DISTINCTIONS

- PTDF Fully Funded PhD Scholarship (National Award, 2017–2023)
- PTDF Fully Funded MSc Scholarship (National Award, 2014–2016)
- Publication – “Ransomware Prediction Using Supervised Learning Algorithms” IEEE FiCloud 2019
- Co-author, “Distributed Network Behaviour Prediction Using Machine Learning and Agent-Based Microsimulation,” IEEE FiCloud 2019.

TEACHING EXPERIENCE & PROGRAMME CONTRIBUTION

University of Bradford | 2018–Present

Teaching Assistant & Graduate Laboratory Lead

Contributed to delivering and enhancement of computing programmes across undergraduate and postgraduate levels.

Modules Delivered / Supported

Postgraduate:

- Cybersecurity ISO 27001
- Network Security
- Business Systems Security

Undergraduate:

- Database Systems
- Mathematics for Computer Science

Key Contributions :

- Delivered of cybersecurity laboratory sessions across multiple cohorts
- Contributed to module redesign, assessment mapping, and marking rubric development
- Embedded ISO 27001 governance frameworks and industry case studies into postgraduate curriculum
- Integrated machine learning based malware detection research into MSc-level teaching
- Developed reusable laboratory materials and practical simulation exercises
- Contributed to improved student assessment outcomes
- Supported marking within institutional quality benchmarks
- Contributed to internal moderation and academic quality processes
- Provided structured mentoring supporting student engagement and progression

PRACTICAL LABORATORY DEVELOPMENT

Developed and maintained a virtualised cybersecurity lab environment to support experiential learning.

- Designed penetration testing and SOC simulation environments
- Delivered practical sessions using Kali Linux, Metasploitable, and Windows Server
- Conducted demonstrations in network scanning, vulnerability assessment, and exploitation
- Integrated lab-based learning into module delivery to enhance student outcomes

STUDENT SUPPORT & MENTORING

- Mentored undergraduate and MSc students on coursework and research projects
- Supported early-career researchers in cybersecurity topics
- Co-authored research outputs with mentees, demonstrating research-led teaching
- Provided structured academic guidance to improve student performance and confidence

RESEARCH-INFORMED TEACHING

- Integrated PhD research on malware detection into postgraduate teaching
- Applied machine learning concepts to real-world cybersecurity case studies

- Supported student understanding of AI applications in cybersecurity

INDUSTRY & PROFESSIONAL PRACTICE

Scientific Officer I

Nigeria Atomic Energy Commission | 2012–2025

Worked within a nationally regulated, safety-critical infrastructure organisation.

- Conducted systems simulations and technical analysis
 - Supported regulatory compliance and audit processes
 - Delivered structured technical workshops and training sessions
 - Prepared analytical reports for senior leadership
-

PROFESSIONAL RECOGNITION & DEVELOPMENT

Professional Recognition

- FHEA – Fellow Application in Preparation (Advance HE)
-

Industry Certifications

- CompTIA Security+ (In Progress – Primary Focus)
 - Google Cybersecurity Professional Certificate (2026)
 - CISSP (In Progress)
 - Certified Ethical Hacker CEH (In Progress)
 - Offensive Security Certified Professional OSCP (In Progress)
-

Leadership Development

- Leading with Vision – Strategic Academic Leadership Programme
 - Improving Communication Using Lean Thinking
 - What is Generative AI?
-

ACADEMIC ACHIEVEMENTS

- Built a ransomware detection system achieving **88.2% accuracy** using Support Vector Machine (SVM) models

- Developed a deep-learning malware classification framework achieving **99.3% accuracy** (Microsoft BIG 2015 dataset)
 - Selected Participant:
 - CommNet2 Spring School focus on cybersecurity– University of Surrey
 - Next Generation Wireless Networks (Next GWiN) Workshop – University of Sheffield
-

TECHNICAL SKILLS

Python | TensorFlow | PyTorch | SQL
Wireshark | Nmap | Vulnerability Assessment
Azure Fundamentals | Docker | Kubernetes
Machine Learning | Deep Learning | Malware Analysis | Secure Systems

PROFESSIONAL MEMBERSHIPS

Nigerian Society of Engineers (NSE): Membership No. 52856
Council for regulation of Engineering in Nigeria (COREN): Reg No. R50516
Institute of Electrical and Electronics Engineers (IEEE)-Graduate Member
Nigeria Institute of Management (NIM) -Member

REFEREES

Available upon request.
